## Stock Today: MSM Malaysia Slips Midday Following CEO Resignation

By **Shahrizal** July 3, 2025

 Share    

MSM Malaysia Holdings Bhd's share price dipped slightly by 0.95% to RM 1.04 at midday today, as investors reacted to the sudden leadership change announced by the company earlier this week.

The counter opened at RM 1.06 and touched an intraday low of RM 1.03 before recovering marginally. Trading volume stood at 12.78 million shares at the time of writing, with buying interest trailing at RM 1.03 and selling at RM 1.04.

The movement comes after the sugar refiner confirmed the immediate resignation of its Group Chief Executive Officer Syed Feizal Syed Mohammad. MSM has appointed its Group Operating Officer Hasni Ahmad as Acting Group CEO to take over operational leadership in the interim.

The stock had recently hovered near the RM 1.05 mark but is now showing signs of consolidation as market participants assess the implications of the executive departure on MSM's strategic direction and operational continuity.
